

PACKAGING SOLUTIONS

Manufacturer of Heavy Duty Export Quality Corrugated Boxes & Wooden Pallet

INTRODUCTION :

WELCOME TO ARADHYA PACKAGING SOLUTIONS. ...A Complete Solution Of Industrial Packaging. We are pleased to introduce ourselves as a leading packing products manufacturer & packing operation service provider in the industry.

A is a trusted name in the realm of manufacturing, Supplying and exporting a wide assortment of packaging material & solutions.

A Complete Packaging Solution Under One Roof.

Infrastructure

We have well-equipped manufacturing unit with total floor area of 10000 sq. ft that helps us in assuring quality production and safe storage that helps us in assuring on time delivery of the products. Our infrastructure is well-equipped with all the latest machinery and equipments. We keep on upgrading our infrastructure as per the latest advancements in the field. Apart from this, all the installed machines are updated on regular basics as per the latest developments.

Some of the machines regularly used in our production units include:

Sr. No.	Name Of Machine	Specifications	Quantity
1	Corrugation Machine (C Flute)	75"	1 No.
2	Sheet Cutter Auto	74"	1 No.
3	Pasting Machine	120"	1No.
4	Punching Machine	44X58"	1 No.
4	Rotary Machine	110"	1 No.
5	China Thin Blade Machine	120"	1 No.
6	Slotting Machine	110"	1 No.
7	Stitching Machine	62"	2 No.
8	China Stitching Machine	62"	1 No.
9	Strapping Machine	Regular	1 No.

PRODUCTS AND ITS FEATURES:

Heavy Duty Corrugated Boxes

Our Factory is one of the key manufacturer and exporter of premium quality Corrugated Boxes in the market.

Our Product range includes Plain Corrugated Boxes, Printed Corrugated Boxes, Packaging Boxes, Innovation & Customized Boxes, International Standards, Corrugated Pallets.

We are a Professionally managed company and are acclaimed for the innovations in designing the boxes. Our manufacturing unit is well equipped with latest technological aspects.

We are engaged in manufacturing and supplying Heavy Duty Corrugated Boxes that are designed in various specifications in order to meet various requirement of the clients.

Printed Corrugated Boxes

Being one of the reliable manufactures and suppliers we offer our clients a designer range of Printed Corrugated Boxes. Manufactured using premium quality materials these Printed Corrugated Boxes are high in strength and assures long service life. We implement latest technologies to manufacture these Printed Corrugated Boxes and assure our clients for the long service life and high loading capacity of our Printed Corrugated Boxes.

PRODUCTS AND ITS FEATURES:

Customized Corrugated Boxes

We offer wide range of customized corrugated boxes which is renowned among our valued clients for its effectual working. Advanced machinery is used in the production of our boxes. The machinery includes Rotary Machine, Partition Cutter, Board Cutter, Creasing machine, Box stitching and many others. It is manufactured in compliance of requisite standard and can be delivered within given time.

Corrugated Paper 2 Ply Roll & Boxes

We are engaged in manufacturing corrugated paper boxes which is known for its longevity and environment friendly features. It is widely used in Pharmaceutical, Electronic products manufacturing and Chemical industry. It is manufactured in accordance of requisite standards and can be delivered within given time frame.

White Duplex Corrugated Boxes

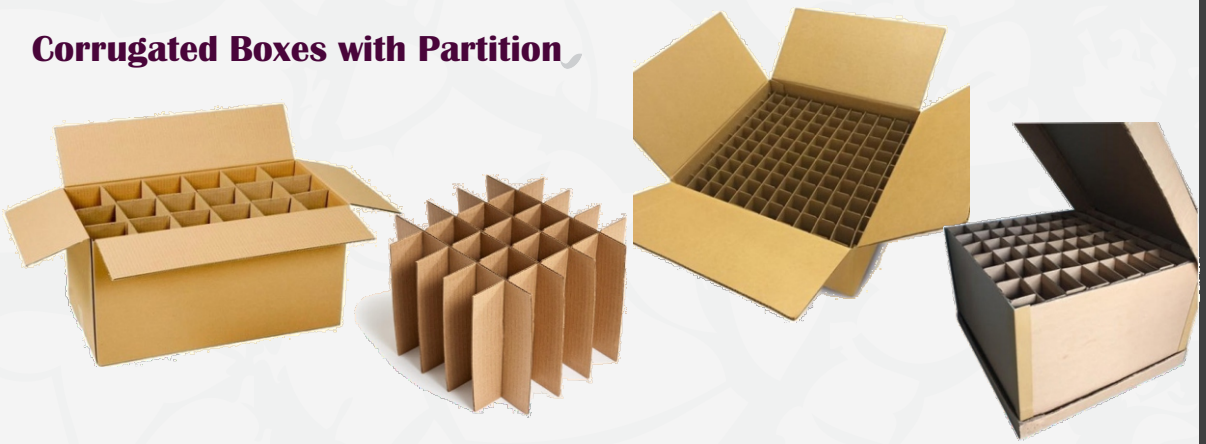

The company has occupied a leading position in manufacturing and supplying a diversified range of White Duplex Corrugated Boxes. Manufactured from unmatched quality materials these White Duplex Corrugated Boxes are superb in quality and in strength. These White Duplex Corrugated Boxes are specially designed as per the international standards and are ideal to store and load heavy materials.

Company offers these White Duplex Corrugated Boxes at most reasonable rate.

PRODUCTS AND ITS FEATURES:

Corrugated Boxes with Partition

One can avail from us a wide range of Corrugated Boxes with Partition. These Boxes are widely used to pack various types of bottles including, pharmaceutical bottles, distilled bottles, drugs and various other bottles. Company offers these Corrugated Boxes with Partitions in various sizes and also offer customized solution as per the choices of our clients. We offer these Corrugated Boxes with Partitions at most affordable rate.

WOODEN PALLET

The pallet, a key component of packaging systems

The vast majority of products that we find in stores are transported on a pallet at some point. Pallets are a key component of modern logistical processes and packaging systems.

Wood, plastic, metal, etc.

- * Pallets must be chosen **according to the product** they are to transport as well as the primary and/or secondary packaging and means of transport.
- * **Tests** can indicate whether a pallet is properly designed and **built to meet the various functions** it must fulfill.
- * Companies continuously strive to **optimize pallet construction materials** as well as the loading pattern of the products they carry.

PRODUCTS AND ITS FEATURES:

Foam

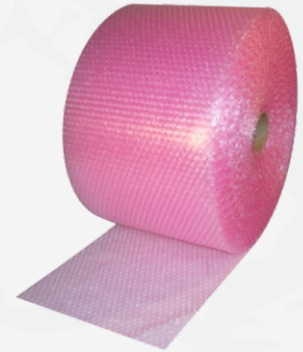

Expanded polystyrene **foam** is a lightweight, rigid, plastic wrap **foam** made from expanded polystyrene beads. It has only a small cushioning performance and is best suited for **packaging** lightweight items. **Packaging** Peanuts, also known as loose fillings, are small, lightweight peanut-shaped **packaging foams**.

Air Bubble Roll:

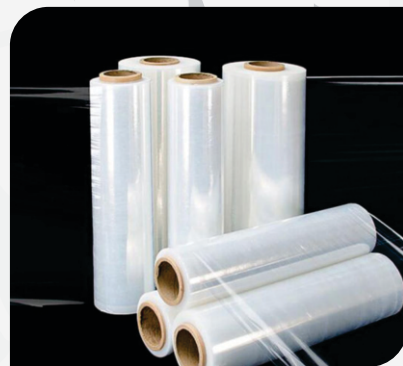

Antistatic Pink **bubble rolls** protect sensitive devices from both physical and Static damage. **Rolls** may be **wrap** bulky items, for transport, lining shipping cartons and envelopes.

Stretch Film:

Stretch film is **used** to **wrap** products on pallets and secure them to each other and the pallet. Helping to reduce product loss, discourage load tampering, and reduce worker injury.

Stretch film plays an important roll in the world around us. Many consumers do not realize that stretch film plays an important part in delivering and transporting most product they use, eat, display, and store. We wanted to prepare a list of products stretch wrap is commonly used on. This is by no means a complete list, there are thousands of products that are wrapped in stretch film for transportation and storage. Last year we wrote a post about commonly shrink wrapped products all around you. This post will be similar, except the end-user rarely sees the stretch film these products are wrapped with.

PRODUCTS AND ITS FEATURES:

VCI Bag :

VCI Bag, or Vapor Corrosion Inhibitor **bag**, is a **poly packaging** film converted to a **bag** that is manufactured with added **VCI** chemistry. **VCI** molecules protect metals from corrosion by forming a thin, invisible layer on the surface. This layer inhibits the corrosion process caused by oxygen, water and contaminants.

VCI Film comes in a range of sizes and MIL thicknesses and can be made in VCI plastic sheets, tubing, J-sheeting and c-fold sheeting. Some stock bag options are flat VCI bags, zipper bags and VCI gusset liners. A range of metal protection types are available as well as acid-gas scavenging technology and additives such as ESD and UV protection can be incorporated.

Poly Bag :

A **plastic bag**, **polybag**, or **pouch** is a type of container made of thin, flexible, **plastic** film, nonwoven fabric, or **plastic** textile. **Plastic bags are used** for containing and transporting goods such as foods, produce, powders, ice, magazines, chemicals, and waste. It is a common form of **packaging**.

Common uses

- Garbage bags & liners: black refuse sacks, wheelie bin sacks, trash bags, bin liners, clear waste sacks, asbestos bags, clinical waste bags, recycling bag, dustbin bags etc.
- Agricultural films: greenhouse film, crop forcing film, silage film, silage stretch film, mulching films
- Grocery bags - carrier bags, counter bags, freezer bags, sandwich bags, food bag, net bag, candy bags
- Thin films for Paper & Tissue products
- Industry packaging: shrink film, stretch film, bag film or container liners
- Consumer Packaging: mailing bags, courier bags, specimen bags, gift bags, card bags, display bags, garment covers, flower bags
- Electronic packaging: antistatic bags, static dissipative bags, conductive bags
- Film/bags for packaging food or medical

PRODUCTS AND ITS FEATURES:

Edge Board:

Protective Edging Angle Board is used to protect edges of products. Protective edging is used to protect edges of various products inflate as well as in length. ... the product when packed on a pallet with angle board gives strong packing and safe packing.

PP Sheet & Boxes :

In order to comprehend and meet the diverse demands of clients, we are able to offer **Polypropylene Rods & Sheets**. The offered range of polypropylene rods & sheets is designed by authentic vendors, who ensure to bring it in compliance with the highest quality norms and standards. Along with this, the offered range of polypropylene rods & sheets is appreciated for its superior chemical, mechanical, thermal and electrical properties.

Silica Gel :

Silica gel packets are used to absorb moisture and keep things dry. Many manufacturers add these desiccant packs to their new products to keep them fresh and moisture-free for the consumer.

Strapping Clips:

Strapping Clips for box strapping are used to seal the two ends of the strapping together during transport. It is important to match the seal width with the width of the strapping you are using. We offers a wide variety of strapping seals and strapping clips for box strapping.

Pet Strapping Roll :

Polyester (PET) Strapping are the strongest plastic strapping products and are used as a viable alternative to steel strapping in the many industries. **Polyester** provides excellent retained tension on rigid loads. **Polyester (PET) Strapping** are the strongest **plastic strapping** products and are used as a viable alternative to steel strapping in the many industries. **Polyester** provides excellent retained tension on rigid loads. ... **Polyester (PET) Strapping** can be used for various applications in industrial packaging.

Advantages

- Lower cost and environmental friendly as well.
- Best Suitable for medium to heavy application
- Rust free and safe working.
- High heat-resisting and lower elongation rate

PRODUCTS AND ITS FEATURES:

Printed Tape :

A **printed tape** is suitable for sealing paper boxes, cardboard or plastic **packaging**. It creates a seal and protects your goods. ... A **printed tape** has versatile **use**. It can be **used** to efficiently impart information or instructions and warnings to customers.

HDPE Cover :

- **High Density Polyethylene (HDPE)**
- **HDPE** is the most widely **used** type of plastic. It's **used** to make many types of bottles and **containers**. Unpigmented bottles are translucent, have good barrier properties and stiffness, and are well suited to **packaging** products with a short shelf life such as milk.

HDPE (High-Density Polyethylene) packaging is commonly used in many forms including bags, bottles, carboys and containers. HDPE is a commodity plastic derived from fossil fuels and is the most widely used types of plastic. The following reviews the properties of HDPE and how it lends itself to a variety of end uses in packing, type of packaging and applications and markets where HDPE packing is used.

Quality Policy: Aradhya Packaging Solutions is committed to understanding and meeting our customer needs and expectations. We will achieve this by:

- 1) Conscious efforts to improve the product quality to consistently cater packaging needs by utilizing state of art manufacturing facilities and ensuring the delivery as per the customer expectation.
- 2) Developing and maintaining open and construction communication with our customers, suppliers and employees.
- 3) Developing our manufacturing process capabilities to meet our customer's future requirements.
- 4) Developing and giving training our people so that they can be fully involved in and had towards achieving this policy

Quality Control Department :-

Paper GSM Tester

GSM (Grammage/Substance) - Checks Grammage of Paper/Board.

Paper Moisture Meter

Moisture Content - Checks the moisture percentage in Paper / Board.

Viscosity Cup

Viscosity - Checks the viscosity of adhesive. 1

Digital Burst Testing Machine

Burst Factor (BF) - Checks bursting factor of Paper/Board.

Burst Strength (BS) - Checks bursting strength of Paper/Board.

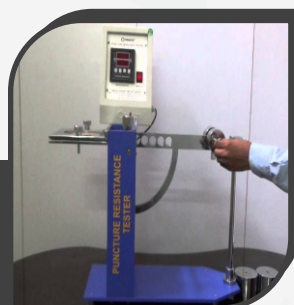

Rct/ Fct/ Ect Use Paper Board Ring Crushing Strength Tester

- * Edgewise Crust Test of Board (ECT) - Checks the top to bottom compressive strength of vertical fluted corrugated fibre board.
- * Ring Crush Test of Paper (RCT) - Helps in determining the compression strength of paper which helps in providing an indication of the compression resistance in the finished product.
- * Flat Crush Test of Corrugated Board (FCT) - The flat crush is a measure of the resistance of the flutes in corrugated boards to a crushing force applied perpendicular to the surface of the board.

Puncture Resistance Tester

Puncture Resistance Test - Checks at what point the board is punctured.

Why us?

Owing to the below mentioned features, we have been considered as one of the reliable names in the industry:

- * State-of-the-art infrastructure
- * Customized products and packaging
- * Competitive Prices
- * Quality Products
- * Timely delivery
- * Ethical business policies

Mission Statement

To be the supplier of choice for high quality based packaging solutions providing service that exceeds the expectations of our customers, and to create value for **Aradhya Packaging Solutions**

Our Vision

- We continuously increase the value that we bring to our customers through innovative packaging solutions, zero defects in our processes, on time delivery, and great service
- We partner with all our employees to provide opportunities for their individual growth and development to be the best that they can be
- We provide a safe and healthy workplace for our employees
- We commit to the sustainability of the environment and our communities

Our Values

- **Accountability** – we accept individual and team responsibility for our actions
- **Respect** – we listen, we help, we engage, we communicate
- **Trust** – we empower our people to do it right, first time
- **Service** – our customers believe we are the best

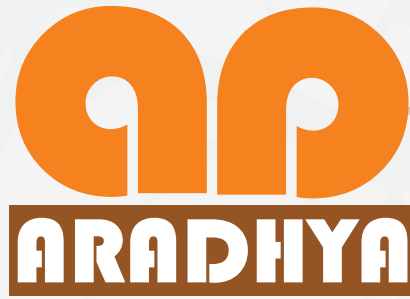

Client satisfaction

Client satisfaction stands high on our priority list and all our endeavors are always directed to achieve the same. From providing customized solutions to offer products with-in committed time-frame, we undertake all. We ensure to maintain effective communication with our respective bulk buyers to ensure that there is no discrepancy at the time of delivery. Moreover the client grievances are responded immediately which has strengthened our bonds with our buyers and has helped us to receive recurring orders from them.

Some of our esteemed clientele are mentioned below:

- BHARAT FORGE LIMITED
- TATA AUTOCOMP SYSTEMS LTD.
- FIAT INDIA AUTOMOBILES PVT. LTD.
- MARELLI MOTHERSON AUTO SYSTEM PVT. LTD.
- MOTHERSON AUTOMOTIVE TECHNOLOGIES AND ENGINEERING
- ELITE PLAST AUTO SYSTEMS PVT. LTD.
- LITENS AUTOMOTIVE (INDIA) PVT. LTD.
- BSA CORPORATION LTD.
- K. K. NAG PVT LTD.
- ROEHLING AUTUMOTIVE INDIA PVT. LTD. (CHENNAI)
- IKEA INDIA PVT LTD.
- FURNITECH SEATING SYSTEMS (INDIA) PVT. LTD
- BILT GRAPHIC PAPER PRODUCTS LTD.
- FM INDIA SUPPLY CHAIN PRIVATE LIMITED
- AMPCO METAL INDIA PVT LTD.
